CALENDRIER-USER MANUAL

#1. Accessing the Application

Option 1: Using the Live Application

The easiest way to use the application is through the deployed web service:

- *Open a web browser*
- *Navigate to:* ***https://calendriercalendarapp.onrender.com***

Once loaded, the user will be taken directly to the application interface.

Option 2: Running the Application Locally

If you would like to run the application from the source code, follow these steps:

1. *Ensure you have access to the project repository (via GitHub)*
2. *Open the project in your development environment (e.g., VS Code)*
3. *Locate and open the file* ***main.py***
4. *Copy the commented line of code used to initialize the application.*
5. *Paste that into the console, and run the code.*
6. *Next, open* ***servery.py***
7. *Run the file*
8. *After running, a local server link will appear in the terminal*
9. *Click or copy and paste the link into a web browser*

The application will now be running locally.

#2. Login/Register Account

User Authentication

When the application is launched, users are first presented with a login screen. This ensures that each user can securely access and manage their own assignments.

Logging In

1. *Upon opening the application, the* ***Login Page*** *will be displayed*
2. *Enter your* ***username*** *in the username field*
3. *Enter your* ***password*** *in the password field*
4. *Click the* ***"Login"*** *button*

If the credentials are correct, the user will be redirected to the main application dashboard.

Creating a New Account

If you do not already have an account, you must register before logging in:

1. *On the Login Page, click the **"Register Here"** link*
2. *You will be redirected to the **Registration Page***
3. *Enter a desired **username***
4. *Enter a **password***
5. *Click the **"Register"** button*

After successfully registering, you will be automatically redirected back to the Login Page.

Next Step

*Once registered, enter your credentials on the Login Page and click **"Login"** to access the application.*

#3. Home Page

Home Tab Overview

After successfully logging in, the user is directed to the home page of the application. This page serves as the central hub for managing assignments and tracking productivity.

Assignment List

The main section of the dashboard displays a list of all current assignments. Each assignment is shown with its relevant details, allowing users to easily view upcoming tasks and deadlines.

Add Assignment Button +

*Located to the right of **"Add New Assignment"**. This button allows users to create new assignments and add them to their schedule.*

1. *Once this button is clicked, a pop-up window will appear prompting you to enter assignment details*
2. *Fill in the following fields:*

- ***Assignment Name***
  Enter the name of the assignment (e.g., Lab Report #4)
- ***Class***
  Enter the course associated with the assignment (e.g., CSCI 4250)
- ***Color***
  Select a color to visually categorize the assignment

- ***Course Tag***
  Assign a tag to help organize and filter assignments by course
- ***Due Date***
  *Enter the due date in the format **MM/DD/YYYY***
- ***Priority***
  Select the priority level:
  - *High*
  - *Medium*
  - *Low*

Mini Calendar

In the top-left corner of the dashboard, a mini calendar is displayed. This provides a quick visual reference for dates and helps users stay oriented within the current month. There is also a "Open full calendar" link that will redirect to the Calendar tab.

Course Filter

Below the mini calendar is a course filter. This feature allows users to filter assignments based on specific courses, making it easier to focus on relevant tasks.

Pomodoro Timer

The dashboard also includes a built-in Pomodoro timer to support focused work sessions. The timer offers:

- *Three preset time options for quick selection*
- *A custom time setting for personalized sessions*
- *A **full-screen mode** for distraction-free focus*

Users can utilize this feature to manage study time effectively alongside their assignments.

#4. Calendar Page

Calendar View

The Calendar View provides a full-screen display of their calendar which allows users to visualize their schedule more effectively.

Accessing the Calendar

- *Navigate to the **Calendar tab** within the application*
- *Press the "Open full calendar" button on the home screen.*

Viewing Assignment Deadlines

- *Days that contain assignment deadlines will display a visual indicator*
- *This allows users to quickly identify important dates at a glance*

Viewing Assignments by Date

1. *Click on any specific day in the calendar*
2. *A list of assignments due on that day will be displayed*

This feature helps users focus on tasks due on a particular date.

Connecting a D2L Calendar

The application allows users to import assignments directly from a D2L calendar.

Steps to Connect:

1. *Click the **"Connect D2L Calendar"** button located below the calendar*
2. *A pop-up window will appear*
3. *Paste your **D2L calendar URL** into the provided field*
4. *Confirm the action*

Once connected, assignments from D2L will be automatically added and displayed within the calendar.

#5. Assignments Page

Assignment Page

The Assignment Page provides a full-screen view of all assignments, allowing users to easily review and manage their workload.

Viewing All Assignments

- *Navigate to the **Assignment Page** within the application*
- *All assignments will be displayed in a comprehensive list format*

This view allows users to see all tasks in one place without the constraints of the dashboard layout.

Filtering Assignments

The Assignment Page includes a filtering option to help users focus on relevant tasks:

- *Click the **"Hide 'Available' Assignments"** button*

When enabled:

- *Assignments marked as "available" will be hidden*
- *Only assignments that are due will be displayed*

This feature helps users prioritize upcoming deadlines without distraction.

#6. Account Page

Account Page

The Account Settings page allows users to manage their personal information and customize their experience within the application.

Username Display

- *The user's current **username** is displayed at the top of the page*
- *This confirms which account is currently logged in*

Changing Password

Users can update their account password:

1. *Navigate to the **Account Page***
2. *Select the new password text box*
3. *Enter new desired password*
4. *Click Update Password*

The new password will be applied immediately after confirmation.

Dark Mode

The application includes a dark mode option for improved visibility and reduced eye strain:

- *Toggle the **Dark Mode** setting on or off*
- *The interface will update instantly based on the selected mode*

D2L Integration

Users can also connect their D2L calendar from the Account Settings page:

1. *Locate the Connect D2L Calendar section*
2. *Paste your D2L calendar URL*
3. *Click save link*

This provides an additional way to sync assignments with the application.

Course Color Customization

Users can personalize how courses appear within the application:

- *Select or modify colors assigned to specific courses*
- *Changes will be reflected across the dashboard and calendar views*
